

End User Agreement Terms

IMPORTANT - PLEASE READ BEFORE DOWNLOADING, INSTALLING OR USING

DO NOT download, install, access, copy, or otherwise use the Software (as defined below), in whole or in part, until you have carefully read and unless you accept the following terms and conditions. By downloading, installing, copying, accessing, or otherwise using the Software, you or your employer or other entity for whose benefit you act ("You") agrees to be legally bound by the terms and conditions of this Agreement (as defined below), including any Exhibits hereto. If You do not agree to these terms and conditions, please do not continue to download, install, copy, access or otherwise use the Software, and destroy any copies of the Software already downloaded.

Please Also Note:

- The license rights granted under this Agreement are limited to the Software provided, or otherwise made available, to You through a web portal or otherwise, for use in or with an associated Intel-based Device for which the Software was designed. This Agreement and the licenses granted hereunder are not intended to and do not extend or expand the scope of any other license or right in or to any other Intel hardware or Intel software that You may have or receive, even if such other Intel hardware or Intel software is used in or with the Intel-based Device associated with the Software licensed hereunder.
- Notwithstanding anything to the contrary herein, You acknowledge that Intel is not obligated to provide a current or prospective licensee with any Software, or to provide any update or upgrade to any Software previously provided.
- NOTE that certain third party software provided with or within the Software may only be used (a) upon securing a commercial license directly from the owner of the software, or (b) in combination with silicon purchased from such third party. A listing of any such third party limitations is provided in one or more text files accompanying the Software.

PREAMBLE. This End User License Agreement (the "Agreement") is offered by Intel Corporation ("Intel") to You contingent upon and subject to Your acceptance of and adherence to the terms and conditions of this Agreement and any amendment, exhibit or addendum thereto. By merely downloading, installing, accessing, copying or otherwise using the Software, Licensee agrees to be legally bound by the terms and conditions of this Agreement. Should you have any questions, concerns or otherwise do not wish to be legally bound by this Agreement, you must not download, install, access, copy or otherwise use the Software.

LICENSE. You have a license under Intel's copyrights to copy Intel's OpenGL Graphics Driver Software in binary form, (with the accompanying documentation, the "Software") onto your organization's computers for your organization's internal use, subject to the following conditions:

- (a) You may not disclose, distribute or transfer any part of the Software except as provided in this Agreement, and you agree to prevent unauthorized copying of the Software.
- (b) You may not reverse engineer, decompile, or disassemble the Software.
- (c) You may not sublicense the Software.
- (d) The Software may contain the software and other property of third party suppliers, some of which may be identified in, and licensed in accordance with, an enclosed license.txt file or other text or file.
- (e) Intel has no obligation to provide any support, technical assistance or updates for the Software.

NO IMPLIED LICENSES OR OTHER RIGHTS. The consideration under this Agreement is only for the licenses that Intel expressly grants to You in the preceding paragraphs. Any other rights including, but not limited to, patent rights, would require an additional license and additional consideration. Nothing in this Agreement requires or will be treated to require Intel to grant any such additional license. An essential basis of the bargain in this Agreement is that Intel grants You no licenses or other rights including, but not limited to, patent, copyright, trademark, trade name, service mark or other intellectual property licenses or rights, by implication, estoppel or otherwise, except for the licenses expressly granted in the preceding paragraphs. Specifically, except for the licenses expressly granted in the preceding paragraphs, Intel grants no licenses or other rights, expressly or by implication, estoppel or otherwise, to:

- (1) make, use, sell, offer for sale, or import modifications of the Software;
- (2) sell or offer to sell the Software;
- (3) combine the Software or modified versions of the Software with other items or to use any such combination; or

(4) any claims of any patents, patent applications, or other patent rights of Intel.

You acknowledge that there are significant uses of the Software in its original, unmodified and uncombined form. The consideration for the license in this Agreement reflects Intel's continuing right to assert patent claims against any modifications or derivative works (including, without limitation, error corrections and bug fixes) of, or combinations with, the Software that You or third parties make that infringe any Intel patent claim.

OWNERSHIP OF SOFTWARE AND COPYRIGHTS. Title to all copies of the Software remains with Intel or its suppliers. The Software is copyrighted and protected by the laws of the United States and other countries, and international treaty provisions. You may not remove any copyright notices from the Software. Except as otherwise expressly provided above, Intel grants no express or implied right under Intel patents, copyrights, trademarks, or other intellectual property rights. Transfer of the license terminates your right to use the Software.

DISCLAIMER OF WARRANTY. The Software is provided "AS IS" without warranty of any kind, EITHER EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE.

LIMITATION OF LIABILITY. NEITHER INTEL NOR ITS SUPPLIERS WILL BE LIABLE FOR ANY DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF PROFITS, LOSS OF USE, INTERRUPTION OF BUSINESS, OR INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY KIND) WHETHER UNDER THIS AGREEMENT OR OTHERWISE, EVEN IF INTEL HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

LICENSE TO USE COMMENTS AND SUGGESTIONS. This Agreement does NOT obligate You to provide Intel with comments or suggestions regarding the Software. However, if You provide Intel with comments or suggestions for the modification, correction, improvement or enhancement of (a) the Software or (b) Intel products or processes that work with the Software, you grant to Intel a non-exclusive, worldwide, perpetual, irrevocable, transferable, royalty-free license, with the right to sublicense, under Your intellectual property rights, to incorporate or otherwise utilize those comments and suggestions.

TERMINATION OF THIS LICENSE. Intel or the sublicensor may terminate this license at any time if You are in breach of any of its terms or conditions. Upon termination, You will immediately destroy the Software, and return to Intel all copies of the Software.

THIRD PARTY BENEFICIARY. Intel is an intended beneficiary of the End User License Agreement and has the right to enforce all of its terms.

U.S. GOVERNMENT RESTRICTED RIGHTS. No Government procurement regulation or contract clauses or provision will be considered a part of any transaction between the Parties under this Agreement unless its inclusion is required by statute, or mutually agreed upon in writing by the Parties in connection with a specific transaction. The technical data and computer software covered by this license is a "Commercial Item," as that term is defined by the FAR 2.101 (48 C.F.R. 2.101) and is "commercial computer software" and "commercial computer software documentation" as specified under FAR 12.212 (48 C.F.R. 12.212) or DFARS 227.7202 (48 C.F.R. 227.7202), as applicable. This commercial computer software and related documentation is provided to end users for use by and on behalf of the U.S. Government, with only those rights as are granted to all other end users under the terms and conditions in this Agreement. Use for or on behalf of the U.S. Government is permitted only if the party acquiring or using this Software is properly authorized by an appropriate U.S. Government official. This use by or for the U.S. Government clause is in lieu of, and supersedes, any other FAR, DFARS, or other provision that addresses Government rights in the computer Software or documentation covered by this license. All copyright licenses granted to the U.S. Government are coextensive with the technical data and computer Software licenses granted in this Agreement. The U.S. Government will only have the right to reproduce, distribute, perform, display, and prepare Derivative Works as needed to implement those rights.

EXPORT LAWS. You acknowledge that the Software and all related technical information or materials are subject to export controls under the laws and regulations of the United States and any other applicable governments. You agree to comply with these laws and regulations governing export, re-export, import, transfer, distribution, and use of the Software, technical information and materials. In particular, but without limitation, the Software, technical information and materials may not be exported or re-exported (a) into any U.S. embargoed countries or (b) to any person or entity listed on a denial order published by the U.S. government or any other applicable governments. By using the Software, technical information and materials, you represent and warrant that you are not located in any such country or on any such list. You also agree that you will not use the Software, technical information and materials for any purposes prohibited by the U.S. government or other applicable government's law, including, without limitation, the development, design, manufacture or production of nuclear, missile, chemical or biological weapons. You confirm that the Software, technical information and materials will not be re-exported or sold to a third party who is known or suspected to be involved in activities including, without limitation, the development, design, manufacture, or production of nuclear, missile, chemical or biological weapons. You agree that any Software, technical information or materials subject to control under defense laws and regulations (e.g., the International Traffic in Arms Regulations [ITAR]) must not be transferred to non-U.S. persons, whether located in the U.S. or abroad, without a government license. You will indemnify Intel against any loss related to Your failure to conform to these requirements.

APPLICABLE LAWS. This Agreement is governed by the laws of the state of Delaware, excluding its principles of conflict of laws and the United Nations Convention on Contracts for the Sale of Goods. You may not export the Software in violation of applicable export laws and regulations.

Your specific rights may vary from country to country.
